

Oncology Massage: Advanced Tutorial

A Two Day Tutorial to expand the Oncology Massage Therapist's skills

Pre-requisite: minimum OMT Module Two

\$825 EB | \$850 per person

Aim

To provide therapists with Advanced Training in Oncology Massage, building upon skills learnt in Oncology Massage Training Modules One and Two. A special emphasis on post treatment care, with advanced techniques taught to ensure greater, longer lasting results for clients experiencing range of motion issues and impaired skin health.

Goal

The Therapist will return to their clinic/work place with advanced Oncology Massage skills; working more confidently with Oncology Clients whose physical issues are limiting their participation in life, and impacting on their emotional, spiritual and mental wellbeing.

About the Tutorial

This Advanced Tutorial is for graduates of OM2, OM3 and OM4 only. Student numbers are limited to **FOUR** to ensure each Therapist enjoys the experience of specific attention and teaching is geared towards each person's particular learning style.

The following is included in the Advanced Tutorial fee:

- Refreshments.
- Linen and support aids.
- Massage tables.

Facilitator

Tania Shaw Dip RM OMT CLT

QLD Coordinator for OMT

Tutorial Content

- **NEW!!** Practical session: working with hospital beds. Various scenarios discussed and experienced with the Advanced Tutorial Therapists. Excellent for those doing home, hospice or nursing home visits.
- **NEW!!** Hand hygiene in the home, the clinic and the medical environment.
- Five client massages per Therapist; each client providing a unique experience.
- Practical tuition on treating physical issues which arise from the treatment of cancer. Working with clients with physical and emotional issues arising from the treatment for cancer – in private clinic and community centre based environments.
- Scar Massage. RaSa-Derm gift pack included to enhance therapist's experience with this technique.

Venue

Established in 1998, Sunshine Coast Haematology and Oncology Clinic (SCHOC), was the first free-standing day-hospital in Queensland, specifically designed for patients receiving treatment for haematology (blood) and oncology (cancer) conditions. Held in high esteem by the medical profession and public community alike, SCHOC regards the needs and wellbeing of the patient to be of the utmost importance. To this end, Oncology Massage (with Tania Shaw) was introduced in February 2015 and is available on Thursdays in the Specialist Rooms.

Sunshine Coast Haematology and Oncology Clinic
10 King Street Buderim QLD 4556
